**Warranty**

This product is guaranteed for a period of one year from the date of purchase. During this period if there is a defect due to faulty materials, or workmanship the retailer from whom you purchased it will replace it with the same or a similar model on production of your purchase receipt or proof of purchase. This guarantee does not cover defects arising from accidental damage, misuse or wear and tear, and is available only to the original purchaser of the product. This does not affect your statutory rights.

**Depending on what adapter you will be using the set-up is as follows:**

- For use in the US or other countries using the same pins, pull down the 2 pins situated at the top of the PSU
- For UK, make sure the US 2 pins are pushed in, then slide the UK adapter in until you here a click
- For EU, make sure the US 2 pins are pushed in, then slide the EU adapter in until you here a click
- Insert the PSU (with or without adapters) into any mains outlet and connect the USB C - C cable into the bottom of the PSU and then into the Nintendo Switch 2, Switch 2 dock or, any device of your choice

To detach any adapter, hold the PSU in one hand and with the other, push the red clip inwards and the adapter upwards at the same time

**The PSU allows you to charge the Switch in the following ways:**

- Directly to the Nintendo Switch/OLED/Switch 2/Switch Lite Console
- Directly to the Nintendo Switch/OLED/Switch 2 Dock

**Nintendo Switch/OLED/Switch 2/Switch Lite Console**

- 1.Ensure that the console is switched off
- 2.Insert the USB-C plug into the consoles USB-C socket
- 3.Plug the PSU into a suitable mains power outlet socket
- 4.The console will now begin to recharge

**Nintendo Switch/OLED/Switch 2 Dock**

- 1.Ensure that the console is switched off
- 2.Insert the USB-C plug into the PSU and the other end into the socket situated on the back of the Dock
- 3.Plug the PSU into a suitable mains power outlet socket
- 4.Insert your Switch into the dock to begin charging

The PSU will also power your dock to enable connection to your TV. Please refer to your Nintendo Switch Manual for further details on charging times etc.

**Please Note:** To power the Nintendo Switch 2 dock, you can only use one of the USB C ports on the PSU at one time. Using both USB C ports at one time might not give sufficient power to the dock

**Important Safeguards & Precautions**

- Children should always be supervised when using this product
- This PSU is for indoor use only
- Do not expose to dust, direct sunlight, wet weather conditions, high humidity, high temperatures or mechanical shock
- Do not expose the unit, to splashing, dripping rain or moisture. Do not immerse in liquid
- Do not position any cables where they would be subjected to extreme heat or flames.
- Ensure plenty of ventilation to the PSU when charging
- Keep all cables away from oil or sharp objects
- Avoid any unnecessary strain of the cable
- Never carry the PSU by its cable
- Do not use the PSU if damaged. A damaged PSU must be discarded and replaced
- Do not disassemble; there are no serviceable parts inside
- For external cleaning, use a soft, clean, damp cloth only. Use of detergents may damage the cabinet finish and leak inside
- Do not under any circumstances replace any PSU supplied with a standard 13-amp plug
- To reduce the risk of fire, electric shock or personal injury, do not use the PSU supplied with any other attachment, unit or equipment other than those stated

- During use, the PSU may become warm. This is quite normal and there is no need for concern
- Once the console is fully charged disconnect the USB-C charging cable
- Do not attempt to charge any other device or battery pack to the PSU
- We do not recommend leaving the PSU to charge overnight or while unattended
- This PSU may be used in other countries if a suitable Mains Travel Adapter is used
- Do not charge any of your devices close to flammable surfaces. i.e. Couches, mattresses, bed covers, etc

Not recommended for children under 6 years of age.

**Recycling**

Where you see this symbol on any of our electrical products, batteries or packaging, it indicates that the relevant electrical product or battery should not be disposed of as general household waste in the EU or Turkey. To ensure the correct waste treatment of the product and battery, please dispose of them in accordance with any applicable local laws or requirements for disposal of electrical equipment/batteries. In so doing, you will help to conserve natural resources and improve standards of environmental protection in treatment and disposal of electrical waste. The recycling and processing of Waste Electrical and Electronic Equipment will make a significant contribution towards helping protect the environment by reducing landfill waste.

**MADE IN CHINA**

Marking of this symbol indicates this product conforms to Electromagnetic Compatibility Regulations 2016 issued by the UK.

Marking of this symbol indicates this product has been tested and is compliant with the EMC Directive of the European Union 2014/30/EU.
